**\*\*Two-Tone Bowls are recommended on all Imperial Series Vanity Top Colors as well as some Pantheon Series colors such as Vulcan. Due to the product being poured onto the mold inverted, the veins will run down the bowl(s) creating a rain effect. Black veins tend to be very bold and can appear very heavy in the bowl(s). For this reason many customers tend to prefer a two-tone, solid color bowl(s) with the colors stated above.\*\***
