

Cleaning and Care

Syn-Mar's Engineered Stone

You can use virtually any NON-abrasive bathroom cleaner to clean Syn-Mar's Engineered Stone. This includes various spray cleaners, soft bristle brushes, sponges and soaps. For deeper cleaning, stronger chemicals may be necessary and will not harm the product. NEVER use any abrasive materials as they will harm the product.

Recommended Products for Daily or Regular Cleaning:

- Lysol Bathroom Cleaner
- Scrubbing Bubbles
- Liquid Soap (non-abrasive)

Spray on the non-abrasive bathroom cleaner of your choice and allow to set on the surface for a few minutes. Wipe thoroughly with a micro fiber towel or non-abrasive sponge until clean. If using liquid soap and water, work to a lather on the surface with your micro fiber or non-abrasive sponge.

Recommended Products for Deep Cleaning:

- 50:50 Bleach Solution
- Denatured Alcohol

Repeat steps from above and use a soft bristle brush to remove stuck on grime if necessary.

DO NOT USE:

- Soft Scrub
- Comet
- Magic Eraser Sponges (Mr.Clean)
- Scotch-Brite Scour Pad
- Anything Abrasive
