

Separate Threshold Shower Base

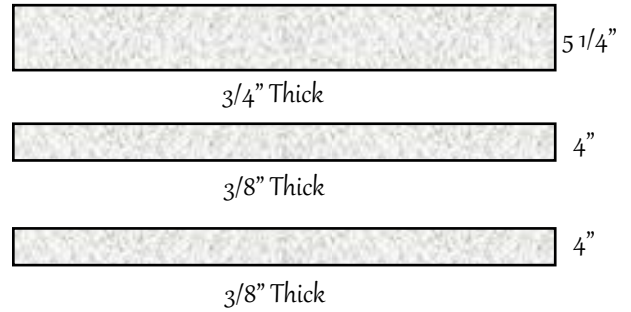

Threshold Built On-site

All Water-dam Shower Base

Threshold Cap and Sides

Length dependent on desired threshold length

Side View of Completed Shower Base with Threshold

Key

Syn-Mar

Sheetrock

Optional Sheetrock

2 x 4

Sheetrock is necessary only on the inside of the threshold down to the water-dam to maintain correct spacing for 3/8" panels. This will result in a 1/2" overhang on each side of the threshold cap. You can choose to use sheetrock on the outside of the threshold as well, resulting in a 1/4" overhang on each side of the threshold cap.

Custom size threshold caps and sides are available by request.

Specifications

- Only available for custom bases
- Accommodates majority of shower door solutions
- Continuous water-dam (flange)
- Maximum base size of 96" x 72"
- Textured non-slip pan
- Available in all Syn-Mar Engineering Stone Colors and Finishes
